

Briefly comprises : Kitchen, lounge with feature fireplace and sufficient space for a dining table. This lounge/dining room leads into an additional room which is ideally situated for use as a separate dining room (this was the original second bedroom). This flexible room then leads out into the inner hallway where there is access into the shower room, again this has been extended so offers much more space than usual, the master bedroom, and a second bedroom which has patio doors into the seating area. Please note: photographs taken whilst owner occupied, this is unfurnished.

The front of the bungalow has been attractively block paved for easy maintenance and parking, and this extends to the side of the house - both sections have wrought iron gates for additional security. At the rear there is a small garden with a paved seating area, and a raised lawn with wide steps and hand rails.
